

Welcome to our company **UNILABEL CORPORATION**...

### **ABOUT US:**

**UNILABEL CORPORATION** is a Bangladesh-based exporter of all kinds of clothing as well as a provider of IT and data management services. In the garments sector, we deal in factory sourcing, sample/design developing, bulk production to final shipment for our valuable customer around the world. In Bangladesh we are associated with, more than 20 knit factories, 15 woven factories, 10 sweater factories and 10 accessories & fabric manufacturers.

At **UNILABEL DMIT**, we provide data management services powered Artificial Intelligence and Machine Learning. From Migration to analyzing to predicting the future, UNILABEL DMIT's full suite has every solution that you need.

Our Customer Service team supports clients across industries and provides services that are not traditionally offered by other outsourcers. We also deliver these services in multiple languages across global delivery locations.

In today's complex multi-geography operational landscape, your process limitations could make you less agile – curtailing your competitive edge. And retooling your processes in pockets may not produce results. What you need is a transformation partner who understands your processes and catalyzes change – by drafting a holistic model that weaves together operations, strategy, technology, and business goals. A partner who sees the 'bigger picture'.

The exclusive **features and benefits** we offer are the followings:

- ☐ Lower labor cost in comparison to other companies, making the deal quite decent and reasonably priced to our valued buyers.
- ☐ Well-built personal links with garments manufacturer, fabrics manufacturers, accessories suppliers & manufacturers in both local and international arena enriches our aptitude to enhance each order and deliver the best possible result.
- ☐ In collaboration with more than 20 knit factories, 15 woven factories, 5 sweater factories and more than 10 accessories/fabrics manufacturers & suppliers in Bangladesh. We are also importer of Garments accessories and fabrics from Hong Kong, Taiwan, China. We deal in all kinds of garments products of knit, oven & sweater.

We hope that, if you nominate us as one of your delegates, you'll get over ten times of your money's worth in value! Guaranteed.

## **Our Strengths:**

- **15+ years' experience in apparel product development, global material sourcing, and strategy.**
- **Experience with materials sourcing for genders, all ages, and multiple product types.**
- **Excellent interpersonal skills with strong company cross-functional and supplier relationships.**
- **Energetic and self-motivated, thriving in both independent and collaborative environments.**
  - The company is well equipped with skilled, expertise and productive manpower. Doing timely shipment and exporting 100% quality garments.
  - We arrange fabric & accessories as per requirement of our valued buyers and provide samples on specific queries.
  - We outsource fabrics production as per the buyer's requirement.
  - We have experienced management team with good number of employees.
  - We correspond with buyers directly.
  - Manage all the paper work; supervise the production from start to end and ship the goods as per the prerequisite of buyers.
  - We conduct two shifts for worker's convenience.
  - Good coordination among relevant departments.

## **Sampling:**

Further, the full stage of sample development is carried out by a team of professionals & experienced personnel. Thereby, a versatile range of hi-fashion men's, ladies and kids wears including t-shirts, shorts, sweat shirts, trousers, blouses, cardigans, skirts, dresses, night wear and other garments is developed to meet the terms of the approved sample.

## **Quality Control:**

To achieve perfection in aspect of garment manufacturing, we lay special emphasize on the quality standards and management control systems adopted in our unit. Our textile laboratory is responsible for taking care of each product to be of utmost quality. The design, fabric quality, color fastness of the garments is duly checked by buyers nominated QC team/ in our laboratory. We have our own QC team as well for proper inspection of goods according to the compliance of buyer.
